

INFO SHEET

INTRODUCING THE CLEARED FOR WORK SCREENING APP

Do you have a plan in place to reduce workplace exposure to **COVID-19**? Use an evidence-based approach with the mobile device your employees already own.

As workplaces begin opening up after months of shutdowns, **71%** of U.S. employers say they have developed workplace and employee safety policies for workers' return, yet only **32%** are prepared for a second wave of mass infections¹. Take a smarter approach to your return to work plans with the **CareATC Cleared for Work Screening App**.

Cleared for Work Screening App Features

Intuitive employee response process with as few as three questions to complete based on the latest CDC guidelines

Timely, targeted multi-channel communication customization for client-specific protocols

Integrated with CareATC Mobile App for easy access to primary care appointment scheduling

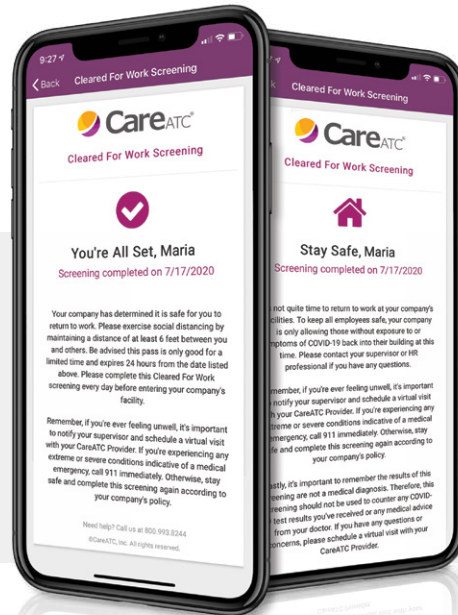

Logged and reportable utilization to keep your workplace and employees safe and healthy

¹ Esola, L. (2020, June 24). One-third of employers have plan for second COVID wave: Willis Towers Watson Survey. Retrieved July 02, 2020, from <https://www.businessinsurance.com/article/20200624/NEWS06/912335274/One-in-three-employers-has-plans-for-second-COVID-19-wave-Willis-Towers-Watson>

How it Works

With the Cleared for Work Screening App by CareATC, employees can use their own mobile device to complete a short questionnaire that provides CDC-based guidance on whether an employee is cleared for work. The app guides employees based on their individual circumstances and records participation and results to help ensure employees are healthy and informed.

CLEARED EMPLOYEES

- Reporting instructions
- Follow-up protocols
- Timing for next screening

NON-CLEARED EMPLOYEES

- Supervisor communication
- Timing for next screening
- Schedule a physician appointment

Cleared employees are provided with reporting for work instructions, follow-up protocols and timing for next screening. Non-cleared employees are instructed to follow company-specific notification protocols, are provided a date for the next screening and are offered the opportunity to schedule a physician appointment.

Benefits of the Cleared for Work Screening App

Halo Effect

- 01 | Barriers to access eliminated
- 02 | Retained continuity of care
