

Important Update Regarding School Sports Physicals

April 1, 2026

Dear valued employees,

We want to share an important update regarding our clinic services this year. While we have proudly offered sports physicals in the past, we will not be providing these appointments this season.

This decision allows us to focus our time and resources on expanding access to other key services and enhancing care for our patients. We remain committed to delivering high-quality care and continuing to grow in ways that best support the needs of those we serve.

We appreciate your understanding and remain here to support you with your primary care needs.
